M.11578 - BOEING / SPIRIT

SECTION 1.2

Description of the concentration

On August 26, 2025, the Commission received notification of a proposed acquisition of all shares in, and thus sole control of, Spirit AeroSystems Holdings, Inc. ("**Spirit**") by The Boeing Company ("**Boeing**") (the "**Transaction**") (together the "**Parties**"). Boeing will acquire (through Sphere Acquisition Corp., a newly created subsidiary directly and wholly owned by Boeing) 100% of the issued share capital of Spirit at the closing date. Both Spirit and Boeing are incorporated in Delaware, USA. The Transaction is notified under Article 3(1)(b) of the EUMR.

The activities of the Parties are as follows:

- Boeing, a US company headquartered in Arlington, Virginia, designs, manufactures, and sells commercial airplanes, defense, space and security systems, and provides related services. Boeing sells its products and provides related services on a global basis. Boeing has no controlling shareholder.

- Spirit, a US company headquartered in Wichita, Kansas, manufactures aerostructures, serving commercial aircraft, military aircraft and business/regional jets. Spirit also provides aftermarket services for commercial and military platforms. Spirit sells its products and provides related services on a global basis. Spirit has no controlling shareholder.

By reintegrating Spirit, Boeing can fully align its commercial production systems, including its safety and quality management systems, and its workforce to the same priorities, incentives and outcomes centered on safety and quality. Thus, this acquisition will directly enable efforts to improve manufacturing quality, safety and production stability.

Boeing believes that this deal is in the best interest of the flying public, customers, and the workers of Spirit and Boeing.
